The department of Biotechnology has a unique combination of subjects in reference to the development made in the area of information technology and biological sciences. With the merger of IT and Life Sciences, the field of Bioinformatics emerged where advancement in the field of technology has boosted the application of Biotechnology for the betterment of mankind. The student of Biotechnology & Bioinformatics can join the fields of Life Sciences related to IT, where solid base of Biotechnology will provide them tools to adapt the industries related to Agriculture, Forestry, Food, Pharmaceutical and other related industries.

COURSE STRUCTURE

First Semester
- Islamic Studies,
- English Composition and Comprehension,
- General Mathematics / General Biology
- Introduction to Computers,
- Chemistry –I,
- Biochemistry-I

Second Semester
- Pakistan Studies
- Academic English: Reading & Writing
- Calculus
- Introduction to Computer Programming
- Cell Biology
- Chemistry-II

Third Semester
- Communication Skills
- Advance Calculus
- Data Structure & Algorithms
- Enzymology
- Genetics

Fourth Semester
- Introduction to Bioinformatics
- Object Oriented Programming
- Molecular Biology-I
- Microbiology
- Biochemistry-II

Fifth Semester
- Database System
- Molecular Biology-II
- rDNA Technology
- Immunology
- Evolution & Diversity

Sixth Semester
- Bioinformatics Computing
- Plant Physiology, Nutrition & Ecology
- Cell & Tissue Culture
- Genomics & Proteomics
- Biosafety & Bioethics

Seventh Semester
- Bioinformatics Methods & Applications
- Plant Biotechnology
- Research Methodology
- Dairy and Food Biotechnology
- Biostatistics

Eighth Semester
- Bioinformatics Software Development
- Research Project*
- Current Trends in Biotechnology
- Environmental Biotechnology

Admission & 1st Semester Fee:

<table>
<thead>
<tr>
<th>Description</th>
<th>Fee</th>
