Editorial

Nature being the most primitive teacher teaches us about birth and beginnings, about growth and development, about death and endings, about rebirth and renewal. The seasons with their turn herald a change accompanied by colours and contrasts, fragrances and fervours, bloom and breeze, flakes and fog.

The primary objective of BUITEMS is to serve the nation by providing a competent human resource. In this regard, BUITEMS growth has been phenomenal in recent years which is reflected by its popularity and successive increase in the number of applicants every year for its degree programs. BUITEMS celebrates spring with fresh spirit and zeal each year by engaging its faculty and students in various academic and extracurricular activities.

The second quarter is particularly marked by the intellectual, cultural, and aesthetic extravaganzas provided by the Second Quetta Literary Festival. The event included the themes of Language, Literature & Culture, Economic Development & the Illusion of Progress, Fine Art & Film Making, Contemporary trends in Journalism and Gender Representation. Additionally, two fetching sessions 'Women in Words: Depiction of Female Characters in Literature and Art,' and 'Men for Men: Toxic Masculinity and its Impact on Men' are particularly pertinent to mention as it shows the maturity as well as understanding of educated mindset of the society where there is great realization of the sensitivities of the issues concerning both genders.

BUITEMS organized its 10th Book Fair which attracted flocks of book lovers from each department of the university. On the other hand, a number of MS Scholars successfully defended their theses. Furthermore, PhD faculty joined back and started imparting their upgraded and renewed knowledge with future research scholars.

Students along with their academic learning inside campus also get an opportunity to participate at different levels in a number of curricular and extracurricular activities. Unless what is taught and discussed inside a class isn't in line with the outside world, hopes for a better tomorrow are in vain. It is heartening that at BUITEMS learning go beyond the traditional classrooms.

May we be good stewards of our time, treasures and talents. (Aameen)
